

ASCOLITE[®]

HEAT SEALED BUTTON SECURITY

Why Ascolite?

Say goodbye to loose buttons. With Ascolite innovative wrapping and heat-sealing process, your garments will withstand the test of time, ensuring long-lasting wear for your customers.

Elevate the quality of your garments. You can impress your customers with impeccably finished clothing that exudes sophistication and durability.

Ascolite system is a cost-effective solution that delivers exceptional results. Minimize rework and returns due to button issues, saving both time and resources in the long run.

Ascolite's state-of-the-art system has become a new standard in garment manufacturing, that has gained trust from international brands and worldwide garment manufacturers.

Transform your garments into premium pieces that stand out in the market. Elevate your brand, exceed customer expectations, and revolutionize your production process with Ascolite.

Experience the difference.

How to apply?

Initially the button is attached with any button sewing machine (or hand sewn) ensuring that there is a minimum gap of 2.5mm between the button and the fabric. The button attaching threads are then wrapped tightly and fused with the Ascolite elastic heat-sealable yarn using the semi or fully automatic Ascolite button wrapping machine. The wrapping and heat sealing takes as little as 1 second to complete.

ECO One

BSS 13 - II

ECO One Semi Automatic:

Up to 450 buttons/hr.
Achieving 3000 wrapped buttons
per 250 M cone.

BSS 13 - II Fully Automatic:

Up to 1800 buttons/hr.
Achieving 7700 wrapped buttons
per 250 M cone.

ASCOLITE Button Shank Wrapping Machines

Machine installation is completed with 12 months guarantee insurance

Smart i4T Software

ASCOLITE®

Ascolite Smart i4T (industry 4.0) software enables connection of Ascolite machines to a server/PC via factory WiFi. Beside remotely 'handling' machines from a control room, the software enables data collection from machines: production output, production time, maintenance schedule, repair and parts replacement records, etc.
